

Bringing more to the vision care experience

Changing lifestyles and budgets have had a big impact on eye care needs, which is why UnitedHealthcare Vision offers a more flexible, holistic experience. Beyond controlling cost, the plans prioritize member choice, engagement and enhancements with the aim of delivering better overall health outcomes and greater value.

A holistic view of vision

- World-class network for greater provider access
- Broad choice of locations, hours, styles and price points
- Integrated data that informs other medical conditions
- Cost-saving bundling options and eyewear discounts
- Enhanced care for those who have diabetes or are pregnant, children under 13 and others who may have frequent vision changes

Broad network access

120K access points nationally—and growing¹

20% network growth over the past 24 months¹

The choice of when, how and who to see

The UnitedHealthcare world-class vision network is one of the nation's largest—and growing. Members have the freedom to choose a provider or retailer—whether virtual or in person, national, local, specialty or online—including exclusive alliances with Warby Parker and GlassesUSA.com, or even buying direct from UnitedHealthcare.

Eye health as a window to overall health

Regular eye exams can be critical to early detection of certain diseases. In fact, they can help identify 270 chronic conditions,² including diabetes and hypertension. UnitedHealthcare works to ensure quality, coordinated care for employees.

- Providers evaluated on quality of clinical and non-clinical care
- Providers also empowered via continuing education courses and more
- Enhanced benefit—including 2 vision visits per year—support those with frequent vision changes like pregnant women, children, computer workers and others who may be exposed to a lot of blue light
- Option to integrate UnitedHealthcare medical and vision plans enables data sharing and possible cost savings

Recognized value for your employees and business

UnitedHealthcare Vision plans were specially designed with both employee and employer needs in mind.

For employees:

- Support and engagement tools that may lead to greater network utilization—which in turn may decrease out-of-network costs
- Market-leading discounts on eyewear, including contact lenses, laser vision correction and up to 30% off frames—one of the industry's highest discount rates

For employers:

- Higher network utilization can also translate to quality care, which may lower health spend
- Bundling vision and medical plans may enable proactive detection of high-cost and chronic conditions—while also simplifying administration
- uBundle® option (medical bundled with dental, vision and/or financial protection products) offers up to 4% savings on the medical premium—3.5% more than bundling medical and vision alone

Proactive detection of chronic conditions

90%

of vision loss could be prevented or treated with regular visits to their vision provider³

Lower out-of-pocket costs with network utilization

98%

of vision members used network providers⁴
