Providing access to the support your employees need

Life may not always be easy. The day-to-day pressures of work obligations and family dynamics can be overwhelming. UnitedHealthcare benefits include resources that offer support for many issues and concerns. Consider these behavioral health resources when your employees or their family members need support.

**AbleTo® (Telephonic/Video outreach): Visit ableto.com/exploremore to get started**
AbleTo focuses on individuals with unmet behavioral health needs coupled with chronic medical conditions and/or major life events. This evidence based, structured therapy program helps to strengthen medical recovery and self-care. AbleTo provides virtual support for depression, anxiety and stress that may accompany health issues, such as cardiac conditions, diabetes, chronic pain and cancer. Individuals who may not take advantage of treatment on their own are identified and contacted proactively. AbleTo engages employees in both behavioral coaching and personalized therapy via phone or video twice a week for up to 8 weeks.

**Behavioral health in-person visits**
Behavioral health care is a service for individuals with specific diagnoses such as clinical depression, bipolar disorder, etc. Substance use disorder treatment benefits also fall under this category. Behavioral health care, typically, is longer term in nature.

The behavioral health benefit can help with ongoing stressful situations, such as:
- Clinical depression
- Bipolar disorder
- Alcohol or drug use disorders
- Domestic violence
- Eating disorders
- Compulsive disorders
- Medication management

**Behavioral health virtual visits: myuhc.com**
Behavioral health care from the comfort of home is now more accessible to help employees and their dependents stay healthier and more productive. With UnitedHealthcare, members have access to behavioral health providers, including sessions with licensed psychiatrists, through our video-based technology on our member website, myuhc.com.

**Talkspace: talkspace.com/connect**
Talkspace is a digital platform offering an alternative to face-to-face therapy that is available to UnitedHealthcare members enrolled in a self-funded plan. Members can interact with a network provider via text, audio/video messaging or live session. Members register first at the website listed. Then, download the app once registered as a UnitedHealthcare member.

continued
Live and work well: liveandworkwell.com
Dedicated member portal with many resources and online Cognitive Behavioral Therapy (CBT) tools. Members can connect via myuhc.com or access directly using their HealthSafe ID.

Recovery Record (available through the App Store)
This app helps to promote recommended treatment options to help engage and improve outcomes for members with eating disorders. Recovery Record provides members and providers with a way to connect on provider-recommended treatment plans and progress in between regularly scheduled appointments to help improve member engagement and outcomes. Recovery Record is being offered at no additional cost to the provider in order to help promote its use. The patient app provides daily connection to care plan, and the provider app connects the care team to information stored by the patient in the app.

Adolescent Care
Equip: Visit equip.health/providers
Eating disorder treatment that works and delivered at home. Accepting patients from age 6-24. Family based treatment that offers 5-person care team.

Bend Health
For ages 1-17, Bend Health takes a whole-person, whole family approach to mental health. Bend Health offers 3 levels of care; Coaching + Therapy, Coaching + Therapy + Medications, Coaching + Medications Maintenance. Practitioners work as multi-disciplinary teams to address the unique needs of every kid, teen and their family. Members can connect via myuhc.com and search Bend Health.

Charlie Health²
For ages 12-28, Charlie Health offers a virtual intensive outpatient (IOP) program. Once a patient has completed a biopsychosocial evaluation and a psychiatric evaluation, an individualized treatment plan is created to address the unique needs of the patient. Members can connect via myuhc.com and search Charlie Health. Note: Charlie Health is not available in every state.

InStride Health
For ages 7-19, InStride Health provides a continuum of outpatient virtual care (including intensive outpatient treatment) for children and adolescents and their families who are struggling with Anxiety Disorders and OCD. The first step in the referral process (for referring providers or families) is to complete our online application (https://links.instride.health/app-router) or call 855-438-8331.

Self Care from AbleTo¹: Visit ableto.com/begin
On-demand access to self-help for stress and emotional well-being. Get access to self-care techniques, coping tools, meditations and more — anytime, anywhere.
