

“Me, need a will? I never thought I did. Then an old high school buddy died without an estate plan and his family was left with a real mess on their hands.”

That’s when I called Resources For Living for help. And here’s what I found out: I can get a simple will kit for free. Plus I can have a 30-minute phone consult with a lawyer at no charge. I can even get discounted rates if I need more legal help. So now I’m working on a will and other plans that will make things easier for my family if something ever happens to me. It’s one less thing to worry about.

“Thank you for helping me plan for the future and protect my family’s financial wellbeing.”
