

## Need a second opinion? We can help.

Second opinions help people make more informed, confident decisions about their care. They might uncover new treatment options or, in some cases, produce a completely different diagnosis.

**Health Advocate simplifies the second opinion process.** Simply reach out to our experts, who will take care all of the details... at no cost to you.

Conduct a complete  
clinical intake

Carefully review  
your coverage

Schedule your second  
opinion consultation  
(in-person or virtually)

Locate the most qualified  
physician specialists with  
expertise in your diagnosis

Transfer  
medical records

Answer all of your  
questions along the way

You receive a confidential second opinion report from your specialist to share with your care team. You and your loved ones get more peace of mind, knowing your care and treatment are on track.

Health Advocate's services are available to employees, spouses, dependents, parents and parents-in-law.  
**Completely confidential.**
