WHAT IS TUITION REMISSION?

The tuition remission benefit pays a percentage of tuition costs at GW. The exact rate of coverage relies on a number of factors, including:

- Employee status
- Employee hire date
- Whether the student is an employee or dependent
- The specific academic program being pursued

The benefit is applied directly to the student’s account. This benefit does not apply to non-tuition charges such as room and board, fees or financial penalties.

The tuition remission benefit policy follows the university’s academic calendar when determining semester start and end dates. To review semester dates, visit https://www.gwu.edu/academic-calendar.

GW manages its Tuition Remission Benefit Policy in accordance with Internal Revenue Service (IRS) regulations. While these benefits at the undergraduate level are generally not taxable, graduate tuition remission is subject to Federal, State, Social Security & Medicare withholding taxes.

EXCLUSIONS AND LIMITATIONS

The tuition remission benefit policy applies only to courses and programs offered at and billed directly by GW and not through a third-party provider. In addition, certain programs are excluded from the tuition remission policy, including:

- Executive Programs
- M.D. degree within the Medical School
- Consortium programs in affiliation with other universities
- GW Pre-College programs
- Certificate and certification programs that are fee based and/or not offered or billed by GW

This list is not exhaustive and is subject to change. An up-to-date full list of programs and courses ineligible for tuition remission is available at hr.gwu.edu/tuition-remission.

Courses, certificates and certifications that are fee based, outsourced or have a shared revenue component with a third party (e.g., courses and programs offered by or billed by 2U) are ineligible for tuition remission coverage.

Students must confirm online course or program benefit eligibility prior to registration by providing the course code and course registration number to the Program Administrator of the GW school offering the course or program.
ADD/DROP COURSES AND WITHDRAWALS

- Those receiving the tuition benefit who add a course(s) after the tuition application was submitted for the semester must notify tuition@gwu.edu to adjust the tuition benefit to match the increased tuition cost.
- Graduate taxes will be recalculated and added to subsequent paychecks, if necessary.
- Employees seeking tax exemption for an added course must submit a new graduate course tax exemption application.
- Those receiving the tuition benefit who drop/withdrawal from a course(s) at any time in the semester before the end of the final exam period must notify tuition@gwu.edu to adjust the tuition benefit to match the decreased tuition cost
- Graduate taxes will be stopped effective the next pay period after the course is dropped or refunded, if necessary.
- At no time will the adjusted benefit be issued to the student as a refund or credit for a subsequent semester.

EMPLOYMENT STATUS CHANGES

- Tuition remission benefit coverage adjustments resulting from a change in employment status, benefits-eligibility, or position are effective the semester following the effective date of the change
- If an employee separates from the university while utilizing the tuition remission benefit it will be pro-rated and the employee will be billed by the Student Accounts Office for the balance.
- The prorated amount is the difference between the last date of employment and the last day of the University’s final exam period (see Academic Calendar), not the last day of class(es).

TAX OBLIGATIONS

The value of the tuition remission benefit may be taxable at the federal and/or state level. A number of factors determine tax withholdings, including the type of degree being pursued and whether the benefit is used for the employee or the employee’s dependent(s). We recommend that you consult with a tax advisor to determine the impact on your income and plan accordingly for any additional tax withholding before financially committing to your program.

Faculty and Staff:
- Undergraduate tuition is generally exempt from tax withholdings (i.e. federal, state, Medicare and social security).
- Graduate/Doctorate tuition is included in the employee’s gross wages and is subject to tax withholding.
  - The IRS allows up to $5,250 for graduate-level courses to be tax exempt per calendar year. Tuition remission benefits received in excess of $5,250 are included in gross wages and are taxable (i.e. Federal, State, Social Security and Medicare taxes).

Spouse/Domestic Partner/Child Dependent:
- Undergraduate tuition is generally exempt from tax withholdings
- Graduate tuition is considered taxable income and is included in the employee’s gross wages and is subject to tax withholding

Taxes are withheld from the employee’s paycheck during the same semester in which the course(s) is taken. The actual amount withheld from each paycheck may vary.
