

PUNCH ORIGIN REPORT

Punch Origin Report is good when you are looking for the phone name the employee is using to clock in and out from.

1. **Client column** shows:
 - a. A phone number displays if employee time stamped by phone
 - b. An IP address displays if employee time stamped by browser or mobile app
2. **Data Source column** shows:
 - a. **Server IP** that took phone call
 - b. **Mobile Device** if employee clocked in by mobile app
 - c. **Time Stamp – Applet** if employee clocked in by PC browser
